

Red lines: synonymous mean (solid) and \pm SD (dashed); Blue points: extreme residuals

Scatter plot showing the relationship between Residual Rank (X-axis) and Residual (Y-axis) for the variable 'number'. The plot displays a red curve representing the sorted residuals and blue dots representing the residuals for specific ranks. The ranks are labeled: 126, 115, 177, 180, 181, 204, 205, 237, 295, 296, 298, 299. The residuals range from approximately -0.25 to 0.15.
