

Red lines: synonymous mean (solid) and \pm SD (dashed); Blue points: extreme residuals

Red lines: synonymous mean (solid) and \pm SD (dashed); Blue points: extreme residuals

The figure is a scatter plot with a connecting line, showing the relationship between Residual Rank (x-axis) and Residual (y-axis). The x-axis ranges from 0 to 400, and the y-axis ranges from -0.3 to 0.1. A red line connects the data points in order of their residual values. The points are labeled with IDs. At the bottom left (low rank, low residual), the labels are 149, 227, 237, 290, 164, 280, 181, and 167. At the top right (high rank, high residual), the labels are 290, 282, 226, 236, and 270.
