

Red lines: synonymous mean (solid) and  $\pm$  SD (dashed); Blue points: extreme residuals

The plot shows the distribution of residuals for the 1000th iteration. The red curve represents the sorted residuals, and the blue dots highlight specific points of interest, labeled with IDs. The x-axis is 'Residual Rank' (0 to 400) and the y-axis is 'Residual' (-0.1 to 0.1).
